

Pictures for Crestview's Web Site

CrestviewChurch.com

We would love to have you help us get pictures for Crestview's website. We want to be able to share what is happening at Crestview and with the various groups that go out from Crestview.

The most effective way for you to help with this is to use Picasa to upload a "Picasa Web Album."

If you are not familiar with Picasa, you can go to <http://picasa.google.com/> to see a video and other information about this program. Picasa is a free program that you can download to your computer to edit, organize, and maintain your pictures. Picasa is very easy to use and can be accessed anywhere you can get to the internet. By using the Picasa Web Album you can share particular pictures with us.

We strongly encourage you to put a caption on each picture. As a general rule, use your best pictures and try to "tell a story" about your church event. Normally it is better to keep the number of pictures to a minimum.

Once you have created your Picasa album (be sure to make it a "public" album) you can use Picasa to send a link to us at web@CrestviewChurch.com which will allow us to access the album.
